

Caregiver SEO Case Study:

A caregiving company engaged with Banyan received 236% more website traffic after working with Banyan (as of July 2017).

Fun Fact: this caregiving company requires all of its franchisees to engage in SEO. Stats are compared to franchisees engaged with other SEO companies.

Banyan has experience working with a variety of healthcare professionals and always takes time to understand a caregiver's services before launching an SEO campaign.

Banyan tracks keywords and visibility in search engines through a customized reporting system. This graph represents a caregiver's SEO campaign progress. Banyan guarantees new keywords each month.
